BOE Finds Napa County Assessor's Office Meets Standards

Sacramento – Betty T. Yee, First District Member of the California State Board of Equalization (BOE) released a report finding most properties in Napa County are properly assessed and the overall quality of the assessment roll, representing approximately \$27.4 billion in value, meets state standards.

The [Napa County Assessment Practices Survey Report](#) addresses the quality of the 2011-12 Napa County assessment roll, and presents two recommendations for improving the Napa County Assessor's programs. The report includes the assessor's response to the recommendations, which is available online.

These reports provide an overview of how well the assessors' duties are performed in California's 58 counties and identify where improvements should be made. Every assessor is required to identify and assess all properties located within the county – unless specifically exempt – and maintain a database, or "roll," of the properties and their assessed values.

Surveying the state's 58 county assessors' practices fulfills the BOE's mission of promoting statewide consistency in property tax assessment. Every five years the BOE reviews each county's property tax assessment practices and publishes a report.
