Taking Advantage of Free BOE Tax Products and Services

The BOE offers a number of products and services intended to help California tax and fee payers such as small business owners, tax practitioners, and nonprofit organizations with their tax obligations. Most of the information is free.

This guide provides a listing of services, contact information, educational opportunities, training classes, and useful publications that are available to you.
Visit us online at www.boe.ca.gov

We want to make doing business with us as easy as possible. The BOE’s newly redesigned website offers our customers improved navigation with a convenient login to easily access their accounts, and stay current and up-to-date on important tax and fee information. The website’s clean, streamlined layout enables you to easily find the information you want. You can connect with the BOE through social media such as Facebook®, Twitter, YouTube™, and LinkedIn®. The website’s interactive banners highlight important business tax news and updates. Other new features include Popular Topics, containing information customers use most. The How Do I section helps you find answers to commonly-asked questions, and the Business Center provides useful tax resources.

On the BOE website, you can learn how to register for a seller’s permit, verify a license, file a return, or make a payment online. You can also locate information about small business seminars offered in your local communities. You can quickly find details about sales and use tax rates, special tax and fee program rates, special notices, and electronic services. You can download forms, informative publications and reports, as well as Board meeting agendas. To locate a particular item, type the words into the Search BOE box on the upper right side of the screen.

We recommend you visit our website frequently as we regularly update it with new features, upcoming seminars, revised publications, and the latest news.

Find tax information in one location at www.taxes.ca.gov

The BOE, in partnership with the Employment Development Department (EDD), the Franchise Tax Board (FTB), and the Internal Revenue Service (IRS), established the California Tax Service Center at www.taxes.ca.gov. The website offers a one-stop source for the latest tax information. If you are an individual taxpayer or a small business owner new to California, or looking to start a business, you will find the California Tax Service Center helpful.

Call our Customer Service Center for help

Helpful representatives from our Customer Service Center provide live personal assistance to help you with general tax questions weekdays from 8:00 a.m. to 5:00 p.m. (Pacific time), except state holidays. Our staff includes bilingual representatives available to assist you with your questions.

The numbers for the Customer Service Center are:

You can also take advantage of the automated features of our 24-hour telephone toll-free system that includes recordings of sales tax rates and verification of permit numbers.

Contact us by email

If you have general tax questions that are not addressed on our website, please use the form under the Contact Us tab to send us your questions by email. To safeguard your privacy, we suggest you do not send confidential information, such as your social security number or other taxpayer specific information, to our Customer Service Center email account. While we work hard to safeguard your confidential information, messages sent to our BOE email account are not on a secure server. BOE is not responsible if confidential information that you sent to this email address is accessed by third parties.
Our goal is to answer all your questions within 12 days. However, if you need an immediate response, please call the toll-free number for the Customer Service Center.

**Request personal assistance at BOE Field Offices**

The BOE offers sales and use tax assistance through our Sacramento Headquarters and field offices located throughout the state. If you need help with your sales and use tax account, contact your nearest field office. The addresses and telephone numbers for these offices are located at [www.boe.ca.gov/info/phone.htm](http://www.boe.ca.gov/info/phone.htm).

**Doing business on the go: BOE’s free mobile web applications**

The BOE continues to make doing business on the go as easy and convenient as possible with our free mobile and web applications tailored for mobile devices.

These free iPhone and web applications enable mobile users to find a BOE office, verify a permit, or find the sales and use tax rate.

The BOE recently added a use tax payment enhancement to the payment application (available for iPhone, Android, and mobile web browsers). The online payment method is a streamlined way to manage payments and user account details on your mobile device by logging in with a User ID or an Express Login Code. The online payment method also makes it easy to calculate and pay any use tax owed.

These web applications do not require you to download them to your phone; they simply provide free access to BOE information using the device’s web browser. The iPhone and Android applications can be downloaded from the App Store and Google Play store, respectively.

Find out more about our mobile applications by going to our website and clicking on the cell phone icon.

**Connect with us on Social Media**

The BOE uses Facebook®, Twitter, YouTube™, and LinkedIn® to connect with our customers to provide useful news to businesses and taxpayers.

On Facebook®, you can get the latest news about local events in your area. You can also ask questions by submitting posts to the BOE page.

You can follow us at [twitter.com/CA_BOE_News](http://twitter.com/CA_BOE_News) to get alerts about rule changes, emergency relief for taxpayers, and other updates on sales and use taxes, special taxes and fees, and property taxes.

On YouTube™, you can watch educational seminars regarding property tax exemptions for nonprofit organizations, sales and use tax seminars, and tutorials.

On LinkedIn®, you can communicate with BOE on a more professional business network.

Rich Site Summary or Really Simple Syndication (RSS) is a web-feed format that is another helpful tool for us to communicate with you. Our RSS feed enables you to get the latest news from the BOE and read it on your computer or mobile device. To subscribe, click on the RSS button to begin the subscription process.

Access the latest news from our Research and Statistics Section through their dedicated RSS feed. This tool makes available news about local tax allocations, quarterly taxable sales figures, and the latest Economic Perspectives Newsletter. To subscribe, click on the RSS button on the Research & Statistics webpage to begin the subscription process.
BOE Updates

It is easy to receive electronic updates from us to keep you up-to-date on changes in the law and regulations, and to provide more information on specific taxes and fees.
Receive BOE online updates

To subscribe to our free email list, simply click on the Sign Up for BOE Updates link found at the bottom of our website and fill in the blanks with your name and email address.

By signing up, you will receive important information each month. For example, you will receive a monthly email with links to:

- Special Notices regarding tax rate changes.
- Important notices regarding the rates for sales and use taxes or other fees.
- Schedules of upcoming educational seminars for taxpayers and nonprofit organizations.
- The Tax Information Bulletin (TIB) and other newsletters (discussed below).

Please note: This does not include all of the BOE information made available. Urgent communications may also be sent through the List Serve more frequently than every 30 days. You should also maintain your subscription to other BOE email information lists to ensure that you receive the most up-to-date information about specific programs and activities.

Sign up for our newsletters

Also available on our List Serve are our free newsletters distributed with tax returns, mailed to interested parties, and available for download from our website. These newsletters include articles on the application of tax law to specific types of transactions, and other articles of interest:

- The TIB is a quarterly newsletter that includes sales and use tax information.
- The Special Taxes and Fees Newsletter contains information about special tax and fee programs and is published annually.
- The Cigarette and Tobacco Products Newsletter is geared directly to entities selling or distributing cigarette and tobacco products and is published annually.
- The State Assessee Newsletter contains information on the state assessee valuation process and is published annually.

Receive Special Notices

We issue special notices to provide information about changes in the tax or fee laws or to clarify areas of the law that are frequently misunderstood. We mail the notices to affected groups, or when there are broad changes in the law, to everyone who pays the affected tax or fee. We also send notices explaining changes in law to local governments, and notices of special events and seminars to taxpayers.

You can subscribe to receive special notices electronically through our online Sign Up for BOE Updates service on the website. You can also access past notices by clicking the News & Events tab on our website, then selecting Special Notices.
Receive eBlasts

The BOE also sends “eBlasts” to taxpayers. An eBlast is an email sent simultaneously to a large targeted audience. These eBlasts are sent to taxpayers who have provided us with their email address. By sending an eBlast message, we provide customers with critical, time-sensitive BOE information.

*Please note:* BOE eBlasts are not the same as Special Notices. Although they sometimes contain the same information, Special Notices are posted to our website or mailed to taxpayers, while an eBlast is emailed to those appearing on our mailing list.
Online Services

We offer several options to make it easier for you to file your returns and pay your taxes or fees online. You can find them on our website under the Online Services tab.

Our website offer other features which provide quick and easy access to important tax and fee information. These features include Know Your Tax Rate, an online mapping tool to determine the tax rate at a specific location and the Open BOE, a new data portal to statistical information available to the public.
Registering your business

When you sell or lease any merchandise in California, including vehicles, even temporarily, you are generally required to register with the BOE, and to pay tax on your taxable sales. Even if you make sales online or on a temporary basis such as a fireworks fundraiser, a craft show, or a booth at a flea market, you may need a seller’s permit. Permits are not transferable and may be needed for multiple locations.

You can find out more about temporary seller’s permits by accessing Temporary Sellers from the Business Center quick link on our website (click More and then the Temporary Sellers topic).

There is no fee to obtain a seller’s permit. Our online registration system asks questions about your business operations and will identify the permits or licenses you need based on your responses to these questions. The registration process will automatically save the information you provide at each step, allowing you to stop at any time and continue at a later date. Partially completed applications will be deleted after 30 days.

Most accounts register instantly and the online registration system will allow you to print your seller’s permit immediately. For other special tax and fee program accounts, you will receive an email notification or you can log in to check on the status of your application. You can print your permit or license from our website when you are notified your registration is complete.

Filing your return

Depending on your type of business, the BOE offers an online filing service that is a fast, convenient, and easy way to file your tax returns and pay most tax amounts due online.

You can file online for:
- Sales and use tax accounts
- Use tax returns
- Motor vehicle fuel tax accounts
- International Fuel Tax Agreement (IFTA) accounts
- Cigarette tax accounts (distributors and manufacturers)

Please see our website and click on the Make a Payment tab for information about who is eligible to file online and what information is needed to get started.

For those tax or fee payers who have accounts that are not eligible for online filing, the BOE mails the return or report required at the end of the reporting period. If you have not received a return within 10 business days after the end of the reporting period, please contact the BOE for a replacement return.

If you need additional assistance, you can call our Customer Service Center at 1-800-400-7115.

Making a payment

We offer a number of convenient payment methods for our tax and fee payers to pay and apply the payment toward current and past due liabilities. Usually, customers who are filing a return also make a payment at the same time. You can also make payments directly from your bank account, by credit card, check, or money order. In addition, some of our customers are required to make payment through an Electronic Funds Transfer (EFT).
Pay Directly from Your Bank Account

To make a payment, or to file your return, log in with your User ID or Express Login. This online payment method allows funds to be electronically withdrawn from your bank account using the bank routing number and account number. There is no fee to use this service. You can also set the date for your payment with this option.

Electronic Funds Transfer

The BOE Electronic Funds Transfer (EFT) program allows you to pay online. Electronic payments can be initiated over the Internet or by telephone.

- **ACH Debit Payment**
  If you file online with your User ID or Express Login, you are able to file returns and make ACH debit payments in one transaction. The ACH debit payment method allows BOE to securely transfer funds from your bank account to the BOE’s bank account.

- **ACH Debit Payment—Third Party**
  Initiate an ACH debit payment via the Internet or telephone through the state’s data collector to authorize the transfer of funds. The ACH debit payment method allows BOE to securely transfer funds from your bank account to the BOE’s bank account. Visit our website and click on the Make a Payment tab for more information. The BOE does not charge for this method but your bank may charge a fee for this service. You are responsible for the fees, if any, that your financial institution may charge you for the actual transfer of funds.

  *Please note:* The state’s data collector is not under the control of the BOE and the BOE is not responsible for the contents of their website or any links contained in their website. The BOE recommends that you review the security and confidentiality statements of the data collector.

- **ACH Credit Payment**
  Under this method, you instruct your financial institution to debit (transfer) funds from your bank and credit the BOE’s bank account. For this type of transaction, you must ensure that your financial institution has the ability to send ACH credit transactions in the required file format. For file format information, please visit [www.boe.ca.gov](http://www.boe.ca.gov). Allow your financial institution at least 30 days to set up your account.

  The BOE does not charge for this method but your bank may charge a fee for this service. You are responsible for any fees charged by your financial institution for setup and processing of your ACH credit transactions.

  *Please note:* You are required to pay by EFT if your average monthly tax or fee liability for your account goes above a certain amount. The amount varies depending on what type of account you have. Contact information for different account types is provided below.

Call for More Information

For more information, visit our website and click on the Make a Payment tab. You may also call the BOE’s EFT Helpline at 1-916-327-4229. EFT staff are available weekdays to answer your questions from 7:30 a.m. to 4:30 p.m. (Pacific time), excluding state holidays. Recorded information is available 24 hours a day.

For EFT questions on special taxes and fees, call our Customer Service Center at 1-800-400-7115 (TTY: 711). Staff is available to answer your questions weekdays from 8:00 a.m. to 5:00 p.m. (Pacific time), except state holidays.
Credit Card Payments

You can use your American Express, Discover/Network, MasterCard, or Visa credit cards to make payments for:

- Sales and use tax returns and prepayments
- Special taxes and fees returns and prepayments
- Accounts payable
- Audit payments
- Fee payments

Accounts eligible to file returns online will be able to file returns and make a credit card payment in one transaction.

You can also make a credit card payment over the Internet by visiting our website or calling the credit card processing vendor at 1-855-292-8931. The credit card vendor will charge 2.3 percent of the transaction amount for this service. This service fee is retained by the vendor and is not revenue to the BOE. The minimum fee is $1. To learn more about the credit card program, visit our website and click on the Make a Payment tab, or call our Customer Service Center.

Request a payment plan

We understand you may sometimes have difficulty making your payments. When you do, the BOE is ready to work with you to find the best available solution. Let us help you avoid penalties and interest. If you can’t pay your total past due amount, you can request a payment plan. With a payment plan, you can pay down your balance over time, potentially saving yourself additional penalties and interest.

You can quickly apply online and receive instant feedback and, in some cases, instant approval. Click the Online Services tab and then the Payment Plan tab to begin. You can schedule your payments on dates you choose: monthly, biweekly, or weekly payments.

Almost any tax or feepayer with a past due amount can apply. You can propose payments of any amount greater than $10, but we prefer plans paying off the balance within six (6) months.

You are not eligible to apply for a payment plan if:

- You recently submitted, or are currently participating in, our Offer in Compromise program.
- Your account is in bankruptcy, probate, or receivership.
- You have one or more delinquent (past due) returns.
- You already have a pending or existing approved payment plan.
- Your seller’s permit or license was revoked.

If you have any questions about applying for a payment plan, call our Customer Service Center at 1-800-400-7115.

Request relief online

You can use our online services to request that the BOE consider the cancellation of penalty, interest charges, and/or fees incurred. You only need your account number, User ID, and password to get started. Any tax or feepayer, or their representative, can submit requests online for:

- Relief from Penalty
- Relief from Interest
- Relief from Penalty and Interest Due to a Disaster
- Relief from Collection Cost Recovery Fee
- Declaration of Timely Mailing
- Extension of Time in which to File a Tax/Fee Return

Just click on the Online Services tab and then the Relief Request tab to learn more about relief.

**Request tax relief during a disaster**

The BOE frequently offers emergency tax relief to businesses affected by emergencies including fires, floods, and earthquakes. Victims of emergencies may be given more time to file tax returns, receive relief from interest, receive property tax deferments or adjustments, obtain refunds of taxes paid on damaged cigarettes and alcoholic beverages, and receive assistance in reconstructing financial records. We work closely with the media to let you know what types of relief are available. You can request relief online at www.boe.ca.gov.

Just click on the Online Services tab and then the Relief Request tab to learn more about relief.

**Know your tax rate**

Sales and use tax rates vary depending on the location of the sale or use. A base sales and use tax rate applies statewide. In addition to this tax rate, some cities and counties have voter- or local government-approved district taxes. In some areas, there is more than one district tax in effect. In others, there is no district tax in effect. More than 75 percent of all businesses in California are located, or do business in, areas with a district tax rate.

As an additional resource, the BOE offers an online mapping tool that anyone can use to determine the current sales and use tax rate for a specific address. By simply entering an address, the tool pinpoints the location on a map, provides the tax rate for that specific address, and shows the entire area where that rate applies.

You can look up a tax rate by address at www.boe.ca.gov/knowyourrate.

**Check permits or verify licenses**

**Online**

If a customer submits a resale certificate to buy an item for resale, you should check with us to verify whether the seller’s permit number appearing on the resale certificate is valid. You can check the status of a cigarette and tobacco products license, or whether a vendor of covered electronic devices (CEDs) is registered to collect and pay the electronic waste recycling fee. You can also use the site for verifying owners of underground storage tanks for the Underground Storage Tank Maintenance Fee Program. Go to the tab, Permits & Licenses, on our website and then scroll down to the heading, "How do I verify a Permit or License?,” to enter the account or permit number.

When you enter the account or permit number you are checking, do not enter letters or dashes; simply enter the numbers. You can print out the reply information and keep it with your tax records.

You can access the same information from your cell phone by clicking on the cell phone icon on the BOE website and choosing to Verify a Permit.
By Phone

Call us to verify the seller’s permit of your customer. Enter the account or permit number and use either our automated service or call our Customer Service Center.

1. Automated Seller’s Permit Verification Service: 1-888-225-5263
You may call this toll-free number at any time to verify a seller’s permit. You will not have access to a customer service representative at this number.

2. Customer Service Center: 1-800-400-7115
You can ask one of our customer service representatives to verify the permit number. Representatives are available weekdays from 8:00 a.m. to 5:00 p.m. (Pacific time), except state holidays.

Mexican Merchant Resale Verification

To verify the validity of Mexican merchant identification cards or resale certificates, please call our San Diego office at 1-858-385-4700, or contact your local BOE field office.

Visit OPEN BOE Data Portal for financial information

The BOE opened the door to a new way of accessing information with the launch of OPEN BOE data portal in May 2014. OPEN BOE, www.boe.ca.gov/DataPortal/, consolidates a range of historical data, such as taxable sales in California as well as information on other tax and fee programs, some currently available on the BOE website.

OPEN BOE allows users to easily download or export the data into various formats, including the charts and graphs. Users may view, export, redistribute, and republish this information. The data portal eases access to comprehensive tax, revenue, and expenditure data to the public. For example, media outlets, academic institutions, and local governments may use the portal for background, research, and planning, as well as for examining the BOE’s activities and operations.

Order cigarette stamps

Licensed cigarette distributors can order cigarette stamps and check on the status of their orders online. To use this system, you must be a registered stamp purchaser and have a valid email account, User ID, and password.
Industry Guides, Seminars, Classes, and Videos

Keeping up with changing tax laws can be challenging for any business. We offer training and assistance to help you stay informed. Event information is also available on our website. Click on the tab, News & Events.

Telephone Townhalls

Teleconference Townhalls (also known as Telephone Townhalls) are the BOE’s newest approach to interacting and educating tax and fee payers. Individuals can register online by clicking on the tab, **News & Events**, then **Events**, and then **Town Hall Meetings** for a tele-townhall of interest and later participate by phone, listening to the experts share their knowledge and answer subject-related questions posed by townhall participants.

Seminars

Small Business Tax Days or Small Business Seminars

Each year, the BOE, the Employment Development Department (EDD), the Franchise Tax Board (FTB), the Internal Revenue Service (IRS), and local government agencies participate in several free, educational conferences for business owners. At our information booths in the exposition area of many
seminars, you can find answers to your questions. You can also take classes given by our tax experts. We announce the events by sending emails, mailing invitations to area businesses, displaying posters, distributing flyers in public places (including libraries and government offices), and providing information in the local print, broadcast, and social media. You can register online for these seminars by clicking on the tab, News & Events, then Events.

**Industry Seminars**

We provide periodic, free industry-specific seminars to help particular businesses better understand how to apply the law. If you are a registered taxpayer, we will let you know when a seminar is scheduled for your industry group. You can also check our website for events in your area.

**Nonprofit Educational Seminars**

We conduct free, multi-agency nonprofit seminars for nonprofit and exempt organization participants throughout California. These events bring together BOE sales and use tax and property tax experts as well as representatives of EDD, FTB, IRS, and the Attorney General’s Office (AG). Participants are able to attend presentations and receive individualized tax advice. Continuing Education (CE) credits are offered to attendees for some portions of the seminar workshop. You can register online for these seminars by clicking on the tab, News & Events, then Events.

**California Cigarette & Tobacco Products Licensing Seminars**

We also offer interactive classes on our Cigarette and Tobacco Products Licensing Program and related tobacco tax laws. The classes are designed to inform, answer questions, and help California sellers of cigarettes and tobacco products understand their requirements and avoid penalties. You will learn:

- Who must be licensed
- What brands of cigarettes can be sold in California
- What records must be maintained on the premises
- What to expect during a cigarette and tobacco licensee inspection
- When cigarette and tobacco products may be seized
- How to avoid fines and penalties
- What rights licensees have

You can register online for these seminars by clicking on the tab, News & Events, then Events.

About Us

Created in 1879 by a constitutional amendment, the BOE was initially responsible for ensuring that county property tax assessment practices were equal and uniform throughout California.

The BOE originally administered four new taxes, including insurance and corporate franchise taxes, in 1911 to produce revenue for services throughout the state.

The BOE assumed the responsibility for administering the new sales tax in 1933, created as a result of the tremendous drop in property tax revenues caused by the Great Depression, and began collecting the new use tax in 1935.

Currently, the BOE administers the state’s sales and use, fuel, alcohol, tobacco, and other taxes and collects fees that fund specific state programs in addition to property taxes. The BOE is also the appellate body that hears and considers franchise and income tax appeals from actions of the Franchise Tax Board.

At present, more than one million businesses are registered with the BOE.

The mission of the State Board of Equalization is to serve the public through fair, effective, and efficient tax administration.
