Instructions For Reporting State-Assessed Property

Wireless Telephone and Radio Common Carriers

LIEN DATE 2015
Foreword

The State Board of Equalization (BOE) is required, under the provisions of section 19 of Article XIII of the Constitution, to assess annually all property, other than franchises, owned or used by telephone companies. These instructions are for the direction of those persons responsible for reporting such property. If you have any questions regarding the property statement forms or reporting instructions, contact the State-Assessed Properties Division at 1-916-274-3270, and request to be transferred to the Wireless Telecommunications industry lead person.

All property statement forms and reporting instructions are available on the BOE website at www.boe.ca.gov/proptaxes/sappcont.htm.

I. Property Statement

A. General

A sworn property statement shall be filed annually with the BOE by each person, corporation, or other entity owning, claiming, possessing, using, controlling, or managing any state-assessed property.

This statement shall consist of:

1. Declaration of Costs and Other Related Property Information
2. Such other information as is hereinafter directed or as may be from time to time requested by the BOE.

Except as noted below, all parts of the property statement shall be filed not later than March 2nd. When there is nothing to report on a portion of the property statement, the state assessee must submit the appropriate form marked “NONE.” Failure to respond to all parts of the Property Statement may subject the assessee to the penalties of section 830 of the Revenue and Taxation Code.

To meet unusual situations, exceptions to the requirements of these instructions may be granted in writing by the Chief of the State-Assessed Properties Division.

The Board, for good cause, may grant extensions as follows:

1. Up to 45 days for parts of the property statement relating to development of unitary value indicators. This includes all financial schedules, and any supplemental data requested by the Board. It also includes studies and other voluntary information that the assessee believes affects the value of their property.
2. Up to 30 days for parts of the property statement describing specific operating or nonunitary property. This includes Tangible Property Lists, Statements of Land Changes and Land Identification Maps, and Schedules of Leased Equipment.
3. An additional 15-day extension may be granted for either category above upon the showing of extraordinary circumstances which prevent filing the statement within the first extension.

Supplemental reporting instructions may be issued to individual companies when additional data is needed or to clarify these instructions concerning specific issues. These supplemental instructions will be mailed at least 20 days prior to the extended reporting deadline.

Portions of the State Constitution, Revenue and Taxation Code, and other codes have pertinent information relating to the instructions contained in this publication. All of the codes and portions of the State Constitution pertaining to property tax laws are contained in a publication of the BOE titled “Property Taxes Law Guide.” To find out more about purchasing the “Property Taxes Law Guide” visit the Internet site of the BOE at www.boe.ca.gov.

All information provided in the Property Statement declaration is subject to audit.

B. Declaration of Costs and Other Related Property Information (BOE-517-WT)

This property statement must be signed by the owner or partner of the business, a duly appointed fiduciary, or an agent. When signed by an agent or employee other than a member of the bar, a certified public accountant, a public accountant, or a duly appointed fiduciary, the assessee’s written authorization of the agent or employee to sign the statement on behalf of the assessee should be on file with the State-Assessed Properties Division. The entry on the line “title” should clearly indicate whether or not written authorization is required to be filed with the BOE.

In the case of a corporation, the property statement must be signed by an employee or agent whom the board of directors has designated in writing (other than those excepted on the previous page), by name or by title, to sign such statements on behalf of the corporation, or by an officer of the corporation. The
board of directors may appoint a person or persons to designate such employee or agent. The name of the corporation should be entered on the line provided.

*Sign the property statement in accordance with the requirements listed above. Title 18, section 172 of the California Code of Regulations provides that statements not properly signed have not been properly submitted.*

### 1. Statement of Authorization

In the cases where a company is assigning an agent or authorized representative other than the owner or a corporate officer to act as agent for Property Tax matters with the BOE, a Statement of Authorization (BOE-892) must be filed with the State-Assessed Properties Division. The filing must be submitted annually in order for the agent or representative’s status to remain current.

### 2. Financial Schedules A to D

These schedules shall be used to show the taxpayer’s balance sheet, income and expense statement, and such other information as is required on forms (BOE-517-WT and applicable inserts) supplied by the State-Assessed Properties Division. All cost amounts should be reported at original cost before depreciation.

- **a. Schedule A—Comparative Balance Sheet**
  
  Complete all California and system information as requested. For System companies, enter California balances in all boxes footnoted with an “a.” In lieu of completing Schedule A, preliminary, unaudited, or audited financial statements may be submitted.

- **b. Schedule B—Plant and Equipment in California**
  
  All assets owned or leased shall be reported on Schedule B at original or book cost. Report end of year system balance in the far right column. Original or book cost should include all capitalized costs incurred to place an asset in service. Private right of way costs should also be reported on Schedule B with the appropriate account number.

- **c. Schedule B-0—Distribution of Cost**
  
  Use Schedule B-0 to report plant and equipment cost by account, by county. Plant and equipment cost reported on Schedule B shall be the basis for completing Schedule B-0. Land, rights of way, and exempt items (e.g., licensed motor vehicles, computer applications software) should not be included on Schedule B-0.

- **d. Schedule B-1—Cost Detail of Depreciable California Property**
  
  Depreciable plant and equipment in service shall be grouped by account category and reported on Schedule B-1 at original or book cost by acquisition year. Category totals should agree to the corresponding amounts reported on Schedule B. Attach a reconciliation schedule if the amounts are different.

- **e. Schedule C—Operating Income Statement (California and System)**
  
  Use Schedule C to report Income Statement data. Indicate whether information reported is California or System data. In lieu of completing Schedule C, preliminary, unaudited, or audited financial statements may be submitted.

- **f. Schedule D—Construction Work In Progress (California)**
  
  Use Schedule D to report information specific to California construction work in progress (CWIP). Report the amount of CWIP that is considered replacement, the amount of CWIP that is considered growth and the total amount of CWIP located in California.
C. Tangible Property List (TPL)

1. Unitary Property

A Tangible Property List is not required for reporting unitary property for Wireless Telephone and Radio Common Carrier companies. In lieu of a TPL, Wireless Telephone Companies will submit a Schedule B-0 that is part of the BOE-517-WT—Property Statement. The Schedule B-0 is described in section B.

2. Nonunitary Property

All property carried on the books of the assessee in nonoperating accounts or classified by the State-Assessed Properties Division as nonoperating or nonunitary property the prior year, should be reported on the Tangible Property List (TPL), BOE-533. The TPL form will not be included in your Property Statement packet. Contact the State-Assessed Properties Division by phone to receive an electronic copy of the form and step by step instructions for reporting nonoperating property on the TPL. Nonoperating property must also be reported in the specific Tax Rate Area where such nonoperating property is located. See section I, item 8 for an explanation of Tax Rate Areas.

D. Statement of Land Changes

All land owned or used by state assessees (including gas transmission companies) other than land associated with intercounty pipelines must be reported to the BOE. The term “used by” includes properties leased by the state assessee from private parties (Leased) or government agencies (Possessory Interests). The BOE may delegate assessment responsibility to local assessors when state assessees use only a part of a leased property and the taxes are to be paid by a local assessee.

Assessees that own, lease, or use a fiber optic cable or gas transmission pipeline right of way must report the number of miles of right of way on the Schedule of Fiber Optic Right of Way Miles, BOE-534-FO or the Schedule of Gas Transmission Pipeline Right of Way Miles, BOE-534-PL.

1. General

The Statement of Land Changes (SLC), BOE-551, shall list all lands which have been acquired or disposed of (including partial sales or leases) since the date of the previous property statement. The SLC must be filed with the property statement, or within 60 days of acquisition or disposal, whichever is earlier. State assessees filing a property statement for the first time must file an SLC for each land parcel in which they have an interest. The SLC must be completed in its entirety. If a section of the SLC does not apply to the parcel being reported, it should be marked “Not Applicable” or “N/A.” If no transactions involving land have occurred since the last property statement, an SLC should be filed marked “None” or “No Changes.”

The SLC requests the following information:

a. Tax Rate Area.
b. Map and parcel numbers (see Land Identification Maps).
c. Area (acres or square feet) of parcel, or mileage if a right of way parcel.
d. Both old and new parcel numbers in the case of re-parcelling.
e. Name and address of grantor or grantee (lessor or lessee if leased land).
f. Type of instrument and date of agreement.
g. Recording reference and date.
h. Description of improvements included.
i. The consideration (if any).
   1. Purchase price
   2. Sales price
   3. Monthly/Annual rental at start of lease
   4. Current rental
j. County assessor's parcel number.
k. Lease information.

2. Leased Properties
In the case of a new lease, a description of the terms of the lease shall be given, including the amount
of the current rental, the term of lease, and renewal options, if any. If the terms of the lease are
complex, or cannot be fully described in the space provided, attach a copy of the lease. In certain
circumstances, the assessee may be required to provide a copy of the lease agreement. Leased
properties include property leased to or from another person. The improvements being leased shall be
itemized. A copy of the building plan should be included for newly leased structures.

Whenever there is a renewal of the lease on real property which is reported to the BOE, an SLC shall be
filed with the State-Assessed Properties Division. A brief description of the terms of the renewal shall
be given, including the amount of the rental and the new expiration date. The SLC should be clearly
marked "Lease Renewal."

Legal parcels which are entirely leased (100%) by a state assessee must be reported to the BOE on a
Statement of Land Changes (BOE-551). Three copies of land identification maps must be included.

If one state assessee (lessee) leases property from another state assessee, the lessee is not required
to file a Statement of Land Changes (BOE-551). Wireless lessees shall include the property on the
Wireless Communications Sites (BOE-516) that is filed with the Property Statement.

A ground lease for a portion of a legal land parcel (partial lease) for facilities such as cellular telephone
sites, microwave sites (passive or active), repeater sites, substations, etc., shall be reported.

A ground lease for wireless tower sites that are used but not owned by state assesseses on which
property taxes are paid by a local assessee do not require a SLC to be filed.

A lease of a portion of office or commercial space within an existing building, roof-top space for
communications equipment, or vault space within an existing privately owned communications facility
(partial leases) should not be reported unless the leased portion is from a tax exempt lessor. State
assessee owned or used equipment at these locations is assessable and shall be reported on the TPL.

3. Possessory Interests
Taxable possessory interest means a possessory interest in nontaxable publicly owned real property,
as such property is defined in section 104 of the California Revenue and Taxation Code, and in taxable
publicly owned real property subject to the provisions of sections 3(a), (b) and 11, Article XIII of the
Constitution. For further definitions of possessory interests see Property Tax Rule 20, Title 18, California
Code of Regulations. It should be noted that the partial lease provisions of item 2 above do not apply
to possessory interests.

In listing a possessory interest in a parcel owned by a tax-exempt government agency, the name of
the agency shall be shown, and the expiration date of the agreement shall be stated. If the possessory
interest is derived from a permit or license, the area (or length) and type of use must be stated.

4. Partial Interests
The following variations are applicable to particular kinds of partial interests in land:

a. In listing an undivided interest in a parcel, the total area of the parcel shall be shown, together with
the nature and extent of the assessee's interest, and the names of the other owners.

b. In listing a special interest in a parcel, such as oil rights only, or a full interest except for oil rights,
the nature and extent of the interest shall be shown.

c. In listing water rights, descriptions shall include the name of the granting agency, the tax situs,
the quantity of water use allowed by the water right, the use to which the water will be put, and
any other information deemed necessary. The Land Identification Map and parcel number shall be
shown if the situs is at a parcel.

d. In listing miscellaneous rights in land not covered above, the rights shall be fully described.
5. Nonoperating Land Parcels

Land parcels that are carried on the books of the assessees in nonoperating accounts, or that were classified by the State-Assessed Properties Division as wholly or partially nonoperating the prior year must be reported by Tax Rate Area. If the Tax Rate Area code differs from that of prior year, the change must be reported to the BOE. If a changed Tax Rate Area boundary splits an existing nonoperating parcel, the parcel must be split accordingly, and a new parcel map filed. The standard SLC shall be used for this type of transaction. If the changed Tax Rate Area boundary encompasses an entire parcel, only the changed Tax Rate Area code number needs to be reported. A special SLC (BOE-551-TRA) may be used to report this change, and no new map need be filed.

6. Land Identification Maps

Each SLC, BOE-551, except those related solely to a rental increase or a rental extension, shall be accompanied by Land Identification Maps (Maps). Land Identification Maps shall be filed in triplicate, with the name of the company and the name of the county on each map. Each Map shall be assigned map and parcel numbers as outlined below. Each Map shall show such information as will clearly describe and locate the property with respect to:

- Officially established lines such as section lines, parcel lines, parcel centerlines and intersection lines.
- Reference points shown on maps of record such as township and range.
- Assessor parcel number as it pertains to the parcel being reported.

This information shall include, if necessary, legal descriptions or references to maps filed with the county recorder under the provisions of Division 3, commencing with section 66499.50 of Title 7 of the Government Code. Maps showing information other than land location matters may be used, but such other information will not be considered a part of the description for purposes of assessment.

The scale of the map and the direction of North shall be shown on all Maps. Previously prepared maps, such as Interstate Commerce Commission valuation maps, will be accepted up to a maximum overall size of 24” x 56”. County assessor’s parcel maps will be acceptable, provided they meet the previously stated tests for clarity of description, and if they have the parcel being described clearly delineated.

Land Identification Maps shall be assigned a three part number; for example, 872-34-6B or 1284-34-7. In the first example, 872 is the SBE number assigned to the assessees; 34 is the code number of the county, being the county’s position in an alphabetical tabulation of counties; 6 means that the Map is number 6 in a series of Maps for that county; 6B indicates that changes occurred as shown on Map 6 after it was originally filed, requiring reparcelling as shown in Map 6A, and further reparcelling as shown on 6B. Parcel numbers shall be assigned consecutively beginning with Parcel 1 for each map. Parcel numbers shall restart with number 1 on each subsequent revision to the base map.

Each new map showing the reparcelling of parcels on a previously filed map shall be given the same number as the original map with the suffix “A” (or “B”, “C”, etc., when more than one supplementary map is filed). No land which remains correctly described by the original map shall be shown as parcels on the new map with the suffix.

Each nonoperating parcel shall be entirely within one Tax Rate Area, and no parcel shall extend beyond the limits of one map. It is not necessary to show Tax Rate Area numbers on the map. A map may contain more than one parcel in the same county. Maps of nonoperating parcels may contain more than one Tax Rate Area, as long as each parcel is totally included in one Tax Rate Area. Additional parcels cannot be shown using the same map number in a subsequent year; letter suffixes must be added.

Maps shall not be refiled annually. New maps shall be filed only under the following circumstances:

a. When it is necessary to show new parcels acquired subsequent to the prior year lien date property statement.

b. When new parcelling of previously reported parcels is necessary; for example, new Tax Rate Area boundary lines splitting a nonoperative parcel, or when a portion of a previously reported parcel is disposed of. In the latter case, only the portion retained is to be shown on the new map.
Changes such as disposal of an entire parcel, changes in the non-fee status that do not affect the boundaries of the parcel, lease renewals, etc., do not require the submission of new maps, and new maps will not be accepted under these circumstances.

Any deviations from the above standards must be approved by the State-Assessed Properties Division in advance, and in writing.

E. Schedule of Wireless Communication Sites

**BOE-516, Wireless Communications Sites**, should be used to report all wireless communication sites acquired during the prior calendar year. First time filers (state assessees filing a property statement for the first time) should list all sites owned or leased. For subsequent years, report those cell sites acquired during the calendar year prior to the lien date. All sites acquired during the calendar year should be reported. It is important that all fields of the form are completed with sufficient detail so that it may be properly determined whether a site is subject to state or local assessment. If you wish to create a copy of the BOE-516 electronically, it must be in the identical format and contain the same fields as the prescribed form. If there were no sites acquired during the year, enter “NONE” in column D of the form and return it with your property statement filing.

F. Schedule of Intangible Information

The Schedule of Intangible Information, **BOE-529-I**, shall be used to declare intangibles. If intangibles are declared, they should be itemized and include a corresponding value. The basis of each value should also be described on the form.

If no intangibles are declared, check the box titled **No Reportable Intangibles**, or mark the “N/A” box on the front of the BOE-517 indicating nothing to be reported.

G. Schedule of Leased Equipment

Personal property or equipment in the possession of the assessee which is rented or leased is to be reported on **BOE-600-A** or **BOE-600-B**. All equipment which the state assessees (lessee) is obligated by the terms of the lease to report for ad valorem tax purposes shall be listed on BOE-600-A. Equipment for which there is not a written understanding between the state assessees and the lessor as to which one is to report the property for assessment shall also be included on BOE-600-A. Property leased from an entity described in Revenue and Taxation Code section 235 (financial corporation) must be reported on **BOE-600-A** notwithstanding the terms of the lease with respect to payment of the property taxes. All equipment listed on BOE-600-A is also to be included in the Tangible Property List.

All equipment which, either by the terms of the lease or by a written understanding between the state assessees and the lessor, except as noted above, that the lessor is to report to the local assessor for assessment to the lessor, shall be reported on BOE-600-B and shall NOT be included in the Tangible Property List. BOE-600-A or B for reporting leased personal property or equipment may be obtained from the BOE website at [www.boe.ca.gov/proptaxes/psfcont.htm](http://www.boe.ca.gov/proptaxes/psfcont.htm).

Additional instructions are printed on the reverse side of each form.

H. Fiber Optic Miles of Right of Way

**BOE-534-FO, Schedule of Miles of Fiber Optic Right Of Way**, should be used to report annually to the State-Assessed Properties Division the number of miles of California fiber optic right of way (ROW)/easements. The assessee is not required to report fiber optic ROW on **BOE-551, Statement of Land Changes**.
For purposes of this publication, right of way is defined as any land or partial interest in land owned or used for the purpose of laying or placing fiber optic cable in order to transmit voice, data, or video signals. The term “used by” shall include land leased by a state assessee from private parties (leased) or government agencies (possessory interest). A right of way is created when fiber optic cable is installed on a pole, buried in the ground or laid on the surface of the ground.

If you do not own or use any fiber optic ROW, check the box titled No Property Interest, on BOE-534-FO.

When completing BOE-534-FO, the following information should be provided.

- Lien date (year)
- Assessee Name
- SBE Number assigned to your company
- Number of miles, by county, of public ROW located in a public street or highway
- Number of equivalent miles, by county, of private shared ROW
- Number of miles, by county, of private ROW (Not Shared) and any taxable possessory interest (PI) not located in a public street or highway
- Total number of miles, by county
- Grand total of California ROW miles

Provide one copy of a ROW route map in sufficient detail to locate on the ground. This is not a request for assessor parcel maps. All maps should be to scale to allow verification of the miles of ROW. Most internal company “As Built” drawings (maps) or route maps will fulfill this reporting requirement.

**Classification of Fiber Optic Right of Way**

Each mile of ROW shall be classified as public, private shared, or private not shared.

ROW located above, below, or along a public street or highway shall be classified as public. Private ROW shall be any remaining miles. Private ROW cost should be reported on Schedule B of the BOE-517 with the account number used by the company to identify the cost.

Report only permanent ROW. Do not report any temporary parcels used for construction of the fiber optic system.

All miles are route (not fiber) miles and should be the total linear miles in, on, or along the ground. Do not include any miles located in a building.

For reporting purposes, report only owned ROW. Do not report ROW used for fiber swaps and exchange of capacity.
The following table should be used as a general guideline in classifying ROW. It does not represent a complete list of the numerous and varied land rights and agreements. Please check with your engineering and/or real estate staff for assistance in classifying ROW miles.

I. Miscellaneous Information

1. Stockholder's Reports and Reports to Regulatory Agencies

Copies of reports to stockholders and reports to regulatory agencies shall be submitted to the State-Assessed Properties Division as set forth in the instructions to state assessees included with Property Statement BOE-517.

2. Foreign Improvement Lists

Each state assessee shall annually file a statement attesting to the separate ownership of improvements located on land owned by the assessee, with the assessor of each county where such property is located, and shall furnish a copy of the statement to the State-Assessed Properties Division.

3. Construction Work in Progress

Construction Work in Progress (CWIP) should be reported as follows:

a. Preliminary Engineering Costs as Part of Taxable CWIP—Preliminary Engineering Costs are those costs incurred prior to the commencement of a construction project such as feasibility studies, architectural drawings, and engineering studies. Preliminary Engineering Costs may also include architectural and engineering costs incurred during the construction phase of the project, providing they relate to the overall project rather than to the portion of the project currently being constructed. These costs should be metered in as part of taxable CWIP based on the percentage of completion as of January 1. Ideally, this completion percentage should be based on an engineering estimate. However, if an engineering estimate is not obtainable, a completion percentage based on the incurred costs of construction including overhead to January 1, divided by the estimated total costs for the project will be accepted.

b. Overhead Costs as Part of Taxable CWIP—The reported amount for CWIP should include the proper loading for Overhead Costs. Overhead Costs are indirect labor, injuries and damages, taxes, general and administrative expenses, and overhead loading such as Allowance for Funds Used During Construction (AFUDC). The reported CWIP for California is considered to be properly loaded with its respective amount of taxable Overhead Costs when:
1. The taxable overhead costs are traceable to the taxable property; or
2. The taxable CWIP is loaded with its proportionate share of Overhead Costs based on the percentage of the job's incurred taxable costs including the metered in Preliminary Engineering Costs to the total expenditures as of the lien date. This percentage is expressed as:
   \[
   \frac{\text{Taxable costs to date before overhead loading}}{\text{Total costs to date before overhead loading}}
   \]
   c. CWIP should be reported in two categories:
   1. CWIP representing construction of new facilities
   2. CWIP representing replacement of existing facilities
   If precise dollar amounts for the two categories of CWIP are not available, percentages may be reported with an explanation of how the percentages were derived.
   d. All CWIP must be included in the TPL.

4. Book Cost
The book cost of an asset should include all the capitalized costs of placing an asset into service. These costs include but are not limited to:
   a. Purchase price.
   b. Sales and use taxes.
   c. Transportation charges.
   d. Installation charges.
   e. Construction period finance charges.
   f. Construction period opportunity costs.
   g. Engineering and design costs.
   h. Site feasibility and acquisition costs.
If the book cost being reported does not include these capitalized costs or other capitalized costs that were incurred in order to place assets into service, report such costs on a separate schedule.
If any of the costs referred to above are being expensed, report such costs on a separate schedule.

Self-constructed equipment and buildings:
The book cost of self-constructed equipment and buildings should include all the costs referred to above. The book cost should be the cost that an unrelated party, bearing the full economic burden, would charge to place an asset into service on a turnkey basis. If any of these costs were not incurred as a cash expenditure, impute an economic (prevailing rate at the time of construction) dollar amount and report such amounts on a separate schedule.

5. Average Inventories
If property is held for resale, report the average inventory of such property for the prior calendar year as well as year end balances.

6. Working Cash
Report estimated working cash necessary for operations based upon the latest lead/lag studies required by the most recent rate cases. Should no current lead/lag study be available, report estimated working cash by other appropriate or generally accepted practices. In either instance, detailed analysis of how the estimate was derived should be included.

---

1 Taxable costs to date, less nontaxable preliminary engineering and less any other nontaxables such as prepayments for out-of-state equipment.
7. Exempt Software

Pursuant to Revenue and Taxation Code section 995, storage media for computer programs, such as hard drives, shall be valued for property tax purposes as if there were no computer programs on such media other than basic operational programs. In other words, computer programs other than basic operational programs are not subject to property tax. Revenue and Taxation Code section 995.2 defines the term “basic operational program.” All software programs not considered “basic operational programs” may be referred to as “exempt software programs” or “nontaxable programs.” It is the assessor’s responsibility to identify and remove all exempt software program costs from taxable accounts and report these costs separately to the BOE on the Schedule B and Summary Control portions of the Property Statement.

All reported costs of exempt software programs are subject to audit. In support of an assessor’s claimed software exemption, Property Tax Rule 152 (f) states, “A person claiming that a single-price sale or lease includes charges for nontaxable programs and services should be required to identify the nontaxable property and services and supply sale prices, costs or other information that will enable the assessor to make an informed judgment concerning the proper value to be ascribed to taxable and nontaxable components of the contract.” Other information can include, but is not limited to, a detailed study from the manufacturer of the equipment. Property Tax Rule 152 (e) also states, in part, “the assessor, lacking evidence to the contrary, may regard the total amount charged as indicative of the value of taxable tangible property."

8. Tax Rate Areas

Each county in California is divided into taxing districts, or a combination of taxing districts called Tax Rate Areas. Each Tax Rate Area within a county is assigned a unique Tax Rate Area number in that county. The Tax Area Services Section (TASS) of the State-Assessed Properties Division defines the boundary of all Tax Rate Areas and assigns the Tax Rate Area numbers. The purpose of the Tax Rate Areas is to determine the property tax amount by applying a specific tax rate, corresponding to the Tax Rate Area where the property is located, to the assessed value of that property.

Tax Rate Area maps are available for use by the taxpayer at the BOE headquarters office in Sacramento, or a taxpayer may inspect the maps at the local assessor’s offices. Copies of these maps may be purchased from TASS.

Information regarding the Tax Rate Area number for a specific location can be obtained from TASS. A subscription service is available for a fee. Any questions or requests should be directed to TASS by contacting the Tax Area Services Section, PO Box 942879, Sacramento, California, 94279-0059, or by telephone at 1-916-274-3250.
