

## Workload

**Improve the workload program by reporting statistics as requested by the BOE pursuant to section 407.**

[Section 407](#) provides that the assessor shall transmit a statistical statement to the BOE annually, on the second Monday in July, supplying any statistical information which the BOE may require, and shall supply from time to time any other information required by the BOE.

By not reporting statistics and other information to the BOE as required, the assessor is not in compliance with current statute.
