Comment:

This Board should not take any action which will create a loss revenue for cities, counties, and schools. These proposals endanger the very health of the local governments which fund critical essential services on which we rely on so heavily during this pandemic. This will result in an additional loss of revenue for schools that are already facing major budget cuts. I urge you to choose to do nothing and maintain status quo and a full rejection of options listed under working groups 3 and 4. Veronica Carrizales, Policy Director for California Calls
