Agenda Item(s):

M1c. Working Group Report – 3: Section 170 Disaster Relief for COVID-19 Calamity

M1d. Working Group Report – 4: Proposition 8 – Decline In Value Relief for January 1 2020

Comment:

This is appalling. These proposals once again favor the wealthy at the expense of the broad majority of citizens, it's shocking that commercial property owners have the gall to suggest these proposals given they already have new big tax breaks and bail outs from the Federal Government. Group #3 These proposals are illogical and will create an additional loss of revenue for schools that are already facing major budget cuts -hurting our most vulnerable children and families.. Choose Option 4. Do nothing; maintain the status quo. Group #4 These proposals disproportionately benefit commercial property owners at the expense of ALL homeowners and jeopardizing the critical services we all depend on. Declaring properties to be damaged and in need of disaster relief to lower values is nothing but a brazen attempt by commercial property owners to capitalize on the crisis. Choose Option 5. Do nothing; maintain the status quo.
