Agenda Item(s):

M1c. Working Group Report – 3: Section 170 Disaster Relief for COVID-19 Calamity

M1d. Working Group Report – 4: Proposition 8 – Decline In Value Relief for January 1
2020Comment:

As a retired homeowner in San Francisco, I ask the committee to vote to Do Nothing on both Working Groups 3 and 4. From what I've read, neither of these requests by large corporate property owners meet the legal definition of physical damage as is being considered under Working Group 3 or good assessment practices in changing the lien date and looking at data during this very short period of downturn as is being considered under Working Group 4. Nor do either pass the sniff test. Could you actually vote to require local governments to cut checks to some of the largest corporations in the world right now? While these proposals and this Board's hearing have been sleepers, you can bet a vote of this magnitude will not go unnoticed.

M1d. Working Group Report – 4: Proposition 8 – Decline In Value Relief for January 1
2020

Comment:

Allowing disaster relief and decline in value relief and using county resources to do so at this time is utterly outrageous. I will personally do everything I can to make sure this is front page news if it passes.
