Hi,

First, I want to thank you for your hard work in trying to clarify Prop 19 as quickly as possible.

May I suggest to include in the Proposition 19 and Implementation Planning Matrix the request for clarification of the following :

Do additional construction/improvements to a newly acquired home (meeting the Prop19 requirements), remain under the prop19 umbrella, as long as the total value of the acquisition + the new construction remains below the value of the sold property, and as long as the work is done within the 2 year window?

Of course you might want to improve my wording ☺

Thank you very much,

Best Regards,

Eric Saint Georges
