Agenda Item: M1. Prop19 Implementation
Meeting Date: 03/29/22

PROP 19 hurts working families. Those who wrote prop 19 never considered families with multiple children who want to stay in community property homes. Parents purchased homes to help their children and now are forced to choose which 1 of their children receive the benefit of the primary residence. Rising real estate over this past year due to the pandemic have made property taxes skyrocket. How can we afford to stay in California? We can no longer afford the home now that reassessment is required.

The ballot and ballot analysis said if the children live in the home as their primary residence taxes won't increase. But it never said on the ballot, primary to primary only. The ballot analysis said it was going after out-of-state landlords. We are not landlords. We just want to stay in California.

Sincerely, Tricia Gonzales
