Title (if applicable):

Company (if applicable):

Mailing Address:

City:

State:

Zip Code:

E-Mail Address:

Account Number (if applicable):

Taxpayer's Name (if not speaker):

Organization:

Telephone Number:

Description of Issues:
Retirees and middle and low income residents are being taxed to death where many are not able to keep their homes or buy a home. Added with inflation issues , doubling or tripling garbage pick fees with bins for green waste , household waste and recyclables is a great burden on residents. In addition my home owners insurance which last year was $1,1250 now is $5,200 a year for California "fair plan" as I live in a foothill community caused by the irresponsible lack of proper forest management which directly leads to the mega fires California experiences we are loosing our state as a functional entity. We are being taxed unmercifully for pet projects and ideology not based on reality. Please stop this ongoing insanity as CALIFORNIA has ready lost a representative in Congress due to people fleeing the state while politicians vote more raises for themselves. This madness will have one result, anarchy and social upheaval. Start by containing costs not increasing the cost to residents. Residents will reach a breaking point and will look for those causing the attacks on the middle and low classes. Reduce property taxes would be a start due to the current economic environment and the crashing of the overall housing market.
