RIVERSIDE

Table I: Total Number of Appeals Filed 2015-16:

Table I from 2014-2015 concludes 43,267

outstanding appeals as of 6/30/2015. Table J from 2014-2015 concludes 17,686 appeals resolved as of 6/30/2015.

$43,267 - 17,686 = 25,581$ carried over to 2015-2016.

There was no Column 9 for carryover in the BOE

Table I for 2015-2016, therefore nowhere to indicate the 25,581 carried over to 2015-2016. The total filed of 4,209 is correct.

In Table J for 2015-2016 the total resolved of 15,807 is correct. Therefore, $25,581$ carried over minus $15,807 = 10,174$.

Those 10,174 are the 2014 timeshare cases withdrawn on 7/11/2016. Due to the timing of the 7/11/2016 withdrawals, and the 2015-2016 report completed/sent.

SACRAMENTO

Table E, Column 18: Parcel count does not include non-assessable mobilehomes.

Table E, Column 23: Number of units is extracted location count. In prior years we reported parcel count. This year we've counted multiple parcels as one location.

Assessed Value does not include Secured Personal Property and Fixtures. Reported figure is adjusted to reconcile with Total Unsecured Roll as certified and reported in BOE 801/802 in July 2016.

Table F: Similar to permits, we receive a voluminous amount of documents each year, but many are non-appraisable CIOs, while others are not CIOs at all.

Table F, Column 7: In past years, we reported only those permits "Screened In" for appraiser review. This year, and forward, we are reporting "All Building Permits Received" which includes numerous activities (re-roofs, etc.) that are "Screened-Out."

Table F, Column 10: This year we launched our new Parcel Creation application. The only statistic we can extract at this time is 2,250 new parcels created during the reporting period. This figure includes new subdivision lots (Table F, Column 11). At this time we are unable to break out subdivision lots from new parcels count.

Table F, Column 11: Included in Column 10. Unable to break out from New Parcels count. Maybe next year.

Table G, Columns 8 & 9: Similar to recorded documents and building permits, many of the paper and electronically filed Business Property statements we receive do not result in assessments. (Of the 11,679 statements filed electronically, many did not result in assessments). Of the 11,120 Property statements that resulted in assessments, many were filed on paper hard copy. (It would not be appropriate to include the entire Column 9 figure in Column 8).

Table G, Column 15: Reported figure is the sum of all variances.

Table I, Column 4: Included in Columns 2 & 3: unable to break out Rural appeals separately at this time.
