ORGANIZATIONS PROVIDING EDUCATIONAL OPPORTUNITIES FOR APPRAISERS

The California State Board of Equalization (BOE) has compiled a list of professional organizations that offer training opportunities for appraisers. This list is not all-inclusive. Sessions offered by the organizations may qualify for appraisal training hours for purposes of continuing education requirements for California property tax appraisers.

The training coordinator of the County Assessor's Office or a BOE supervisor must submit form BOE-744-A, *Request for Training Hours* with session information and supporting documentation to the BOE Training and Certification Unit. The BOE Training and Certification Unit will review the request and determine if the session qualifies for training credit.
