

Proposed comments on Solar Energy Systems New Construction Exclusion

Mr. Frazier,

After reviewing letter No. 2019/035 issued by Mr. David Yeung regarding the newly drafted property statement for solar energy plants I have the following questions:

1. What is the definition of the term "Solar Energy Power Plant"?
2. Is Form BOE-571-X (P.1/19) intended to be used by a taxpayer only when requested by the County Assessor?
3. For reporting solar energy equipment not part of a Solar Energy Power Plant would the taxpayer be expected to use this form or use form 571-L?
4. Does the BOE expect residential solar providers (i.e. the owner of thousands of individual residential rooftop photovoltaic systems) to use Form BOE-571-X (P.1/19)?

Please send a response as a reply to this email or contact me directly using the email address or phone number listed in my signature below.

Thank you in advance for considering these questions.

Regards,
